

dear FCC please leave xm and sirus alone they provide a valuable service .  
Traffic & Weather is part of a safety feature . I live up in Minnesota there are  
time I would not want my family to drive , let,s say there is a blizzard down in  
the twin citys , I do nto want my driving into it from Duluth , by having this  
service it is possible save a life or more . It,s a great service , so take your  
time and effort and put it some where else . There are bigger fish to fry .  
Let,s lower some taxes . thanks for your time . Robert
